    4.2. Time allotted and information to be presented.

    4.3. Repository platform.

# AGENDA MINUTES

## Workshop on Oct 18, 2023 at 8 pm

## UFV, Online

---

- Number of slides and what information the slides should have.
- Allocating slides to group members for preparation.
- Reviewing the rubric and following it up with the discussions.
- Deciding the product to be used for the project.
- We drew up content that we are going to include in our presentations.
- Gigabyte technology is the selected product. It makes motherboards for intel and AMD.
- We allotted a 15-minute time limit to research what we can talk about and then discussed it with the group so that the entire group has knowledge about the ongoing things.
- The discussion concluded with Russell(stakeholder) joining in and further guiding us on the topic we chose.
